Bank Statement (6 months)	Reviewed for transaction history; consistent with declared import-export activity.	**REVIEWED**	Compliance Analyst

All documents cross-verified against customer provided information. NO discrepancies identified. PAN and Aadhaar details cross-verified against customer-provided information. Address proof dated within the last 60 days required under RBI KYC Master Directions.

---

4. Customer Profile Assessment

Occupation: Business Owner

Nature of Business: Import-Export

Expected Activity: Expected 8–12 outward remittances per month to UAE and Singapore-based suppliers, average transaction value ₹3–7 lakh per transfer. Occasional large inward receipts from overseas buyers expected, consistent with export receivables. Minimal cash transaction activity anticipated given the nature of trade business.

5. Screening Checks

PEP Screening: No match found.

Sanctions Screening: One partial name match returned for "Rajiv Mehta" on the OFAC SDN list reviewed and cleared as false positive based on date of birth mismatch (listed entity born 1971; customer DOB 12 March 1985) and different nationality. No true match identified.

Adverse Media: Two search results found referencing individuals named "Rajiv Mehta" in unrelated fraud cases confirmed as different persons based on geographic and biographical details. No adverse findings specific to this customer.

---

6. Risk Indicators (Preliminary)

Cross-border remittance exposure: Regular outward transfers to UAE and Singapore both FATF-compliant jurisdictions but carrying moderate ML risk given hawala network prevalence in the region.

Trade sector risk: Import-export businesses are recognised by FATF as carrying elevated TBML risk due to invoice manipulation potential.

Preliminary Risk Level: Medium subject to review after 3 months of account.

---

7. KYC Status

KYC Status: Completed Successfully Customer is eligible for onboarding subject to standard ongoing monitoring conditions outlined below.

- Monthly transaction monitoring review given medium preliminary risk rating
- Re-KYC due within 2 years per RBI KYC Master Directions Para 38
- Risk rating to be formally reassessed after 3 months of account activity
- Trigger-based escalation if transaction profile deviates materially from declared expected activity.
- EDD to be initiated if risk rating is upgraded or if remittance destinations change to FATF grey-listed jurisdictions.
